

Dear Partners,

We are excited to present you a new member of Eighteeth family, the intraoral X-Ray Sensor - **NanoPix**.

We believe the **NanoPix** will be the disrupter of the industry with following features:

- **Economical**

1/10 cost each patient compared to film

- **Leading technologies**

AED Technology

APS CMOS Technology

Direct Deposition CSI Technology

- **Unique designs**

Ergonomics design of cupped cable connection

Robust Cable Connection with 70000+ Bending RA test passed

Ultra-thin body design(4.4mm)

- **Smart Software**

- **Excellent Combination of DR Pad & its base**
